November 11 – 14, 2025

(London, United Kingdom)

Future-Ready Board Leadership in the Digital Age - Transform Your Board's Effectiveness in the Era of Digital Transformation

Steering a board through the complexities of emerging technologies, ESG imperatives, and evolving governance landscapes requires more than experience—it demands foresight, agility, and a mastery of global best practices. Join an exclusive cohort of forward-thinking board leaders in London for a transformative governance experience designed to equip you with the insights and strategies needed to lead with confidence in an ever-changing world.

Programme Overview

This intensive four-day programme delivers a powerful combination of theoretical knowledge and practical implementation strategies, designed to transform how you approach board leadership.

Through expert-led sessions and interactive learning, you'll master both foundational and emerging aspects of corporate governance that are crucial for today's board leaders.

Exclusive cohort size ensures personalized attention and optimal learning experience.

Programme Fee

An investment of **3,500 Pounds** per participant

About SCGN

The Society for Corporate Governance Nigeria (SCGN) was founded by Prof. Fabian Ajogwu, OFR, SAN in March 2005, and incorporated as a not-for-profit organisation committed to the development of corporate governance in Africa. Today, the Society has become a reference for the articulation, advocacy, and administration of global corporate governance standards for Nigeria.

We have worked with regulators such as the Central Bank of Nigeria, Securities and Exchange Commission, Nigeria Stock Exchange, Nigeria Communications Commission, and a lot of others supported by International Finance Corporation, the World Bank, and institutions like The Lagos Business School. The Society has trained over 20,000 directors, senior executives, and management. We are committed to promoting good corporate governance, accountability, transparency, and ethical corporate culture, through our advocacy and advisory services, board evaluations and board enhancement programs, training programs, events and a vibrant member network of individuals and corporate organisations.

We also undertake regular research, utilising insights and data to establish an ethical corporate culture in Nigeria, leading to enhanced financial viability and sustainability of organisations to build national progress and prosperity.
